

Vocational Advisory Council

The Board of Education shall appoint a vocational advisory council which shall assist the Board and administration in overall promotion, planning, coordination and evaluation of all District vocational education programs. The council shall study issues, offer advice, and make recommendations regarding:

1. Current job needs
2. Relevance of current training programs
3. Reduction, deletion, or expansion of programs
4. Initiation of new programs
5. Financial and legislative support
6. Promotion of vocational education in the schools and in the community

The advisory council shall provide for input from vocational program advisory committees. The council shall represent a cross-section of the community in terms of sex, race, age, occupation, socioeconomic status, geographical location and other appropriate factors. The District Accountability Committee may fulfill this function.
