

School Board Legislative Program

The Board, as an agent of the State, must operate within the bounds of state and federal law affecting public education. If the Board is to meet its responsibilities to the residents and students of the community, it must work vigorously for the passage of new laws designed to advance the cause of good schools and for the repeal or modification of existing laws that impede this cause. To this end:

1. The Board of Education will identify legislative issues relevant to the Eagle County School District.
2. The Board will develop an annual legislative program through conferences with the state and national School Boards Associations.
3. When appropriate, the Board will work for the achievement of common legislative objectives through the state and national associations and with other concerned groups.
4. The Board may also seek direct and indirect representation of its position on pending legislation with appropriate state and federal legislators and legislative committees.
5. The Board of Education will keep in close communication with the state legislators who represent the Eagle County School District and will inform our legislators in writing as to the position the Board of Education would like for them to take when discussing and voting on issues in the state legislature.
