

## HOME SCHOOL ELIGIBILITY REPORTING FORM

Home based and other students which meet statutory requirements shall be eligible. Statutory requirements state that a student in a home based education program must be registered with the school district of participation a minimum of 14 days prior to being considered a home schooled student. Students who do not meet statutory requirements shall be considered ineligible for interscholastic competition, but may practice (provided he/she is registered with the school district).

A student who registers at the beginning of the school year in a non-public home-based educational program may participate in the activities program at a public or private school. In the case of a private school, the student must be accepted for inclusion in the school program by the school and meet any criteria set by that private school.

When selecting a school, one must select the school that offers the greatest number of sports and/or activities in which the individual wishes to participate for their entire high school experience. Otherwise the transfer rule will be effect.

The statute requires that the home based educational program student "comply with all eligibility requirements imposed by the school of participation".

In order for the school of participation to determine if the home based educational program student is eligible, the following information must be provided to the school of participation by the home based teacher/administrator upon request.

List classes in which the student is currently enrolled.
